- Serverless: Firebase, Airtable

SOFTWARE

- Visual Studio
- VS Code
- SSH/(S)FTP
- Git/GitHub/Lab
- Android Studio
- AdSense/Analytics
- Microsoft Office
- Google Drive/Docs
- Blender
- GIMP
- Inkscape
- vim emacs sucks
- TravisCI, CircleCI
- Kanban boards (Trello)
- Slack

LANGUAGES

- HTML "programming" ≠ "markup" but it's still a "language"
- JavaScript
- CSS/Sass
- PHP
- bash/zsh
- LaTeX technically, it is a Turing-complete programming language
- JS but for IE9 a whole different skill, really
- Python
- Java
- MySQL

FRAMEWORKS

- Bootstrap
- Bulma
- React
- Expo
- Gatsby
- Prismic
- Node.js
- Express
- Webpack
- npm/Yarn
- WordPress DYK? PHP stands for Programmers Hate PHP.

Work Experience

TAKINGITGLOBAL

Software Architect

June 2020 – Present

Working on web- and mobile-based projects, including the #RisingYouth microgrant program in partnership with the Government's youth initiatives and COVID-19 response. Gatsby-based web development focusing on supporting accessible and legacy browsing to reach disadvantaged communities. Also developed cross-platform mobile app with React Native, managing CI/CD devops, integrated Airtable database with legacy infrastructure.

THE CANADIAN PARTNERSHIP AGAINST CANCER

Web Developer

June 2017 – Sept. 2017

Created a full-stack LAMP/React intranet database management webapp to facilitate management of enormous quantities of abstracted data for the national Cancer Control Strategy. Collaborated on-site and remotely with a full-time IT team in a corporate setting.

Hobbies and Interests

- Video game, website, and contest programming
- Hackathons (nwHacks 2020; Third Place Overall & Best IoT Hack, Urban Hacks 2019)
- Creating/playing competitive puzzle-solving games: ARGs, CTFs, escape rooms
- Virtual 3D modeling, animating, and various digital art forms
- Computer science, chemistry (97th percentile on Avogadro Exam), and physics
- Playing acoustic guitar, piano, and electric bass
- Teaching people about a wide variety of subjects (formal tutoring and informally)
- Contributing to open projects (e.g., open source, Wikimedia projects, OpenStreetMap)
